David/Jacob,

We met with the architect today to discuss transforming the existing small planter on 6th & Mesa to a permanent stage area where bands can play. This project was spurred by the \$50K CA Arts Grant.

The architect is preparing a rendering for your review. Once you receive the rendering, we would appreciate the Councilmember writing a letter to the general manager of the Parking Facilities Division. (Rene Saglas is the manager so the letter should be address to his boss.)

Thank you for your support and assistance.

Best regards,

Lorena Parker
